Parenting Ideas

The Importance of Breakfast
It’s the most important meal of the day - but one in four children in Australia skip breakfast. At school, a hungry child can lose concentration in class, have no energy for playtime and snack on unhealthy foods such as chips or biscuits. A calm and healthy breakfast everyday is the best defence against this happening. It also helps children to get into good habits that they can carry through life.

We know that sometimes factors work against families in the morning and that a number of our children leave home very early in the morning to travel to school. This is why we have breakfast club. Every morning children have a healthy selection of wholegrain cereal with milk, or wholemeal toast with marmite or baked beans. The children also have the option of a drink of milk. Breakfast Club is almost fully funded by the Red Cross and relies on parent volunteers to run the program. We are very appreciative of all the mums and dads that give up their time to ensure our children start each school day with a balanced breakfast.

Crunch and Sip
We follow up breakfast with Crunch and Sip which occurs in all classrooms at 10.00am. This allows students to refuel and boost their physical and mental performance and concentration in the classroom.

Each day, all students are encouraged to bring a piece of fruit or salad vegetable to school to eat in the classroom. They are also encouraged to keep a drink bottle of water on their desk so they can drink it at anytime of the day to prevent dehydration.

Regular crunch and sip has a positive impact on students by:
- Creating an enjoyable daily routine that increases fruit and vegetable intake.
- Promoting a positive attitude towards fruit, vegetables and water.

Later this term we will once again hold a vegetable day. The students have responded very positively towards this activity in the past.
